EDUCATION

McMaster University

Sep 2024 – Present

System & Technology(Automation and Smart Systems), Master of Engineering

GPA: 3.9/4.0

Soochow University

Sep 2020 – Jun 2024

New Energy Materials and Devices, Bachelor of Engineering, College of Energy

GPA: 3.4/4.0

SKILLS

- **Programming Language:** Java, C++, Python, C, TypeScript, JavaScript (ES6+), SQL, Ruby
- **Web Development:** Angular, HTML5, CSS3, SCSS, Node.js, Express, LoopBack, RESTful APIs, Ruby on rails.
- **Deep Learning & AI:** TensorFlow, PyTorch, OpenCV, CNN, Model Training.
- **Database:** MySQL, MongoDB.
- **Tools & Technologies:** AutoCAD, Figma, Android Studio, Git, Docker.

PROFESSIONAL EXPERIENCE

Ningbo Chunjian Electronic Technology Co., Ltd.

Feb 2024 – Aug 2024

INTERN – AI Research Assistant & IT Operations Specialist

- Developed and trained an **AI residue detection model** for **intelligent cockpit systems** using **Python**, **PyTorch**, and **OpenCV**. Preprocessed image datasets, applied **data augmentation**, and fine-tuned a **CNN-based architecture** to improve detection accuracy.
- Assisted in the **daily maintenance, debugging, and optimization** of the autonomous vehicle's intelligent cockpit system, ensuring stability and efficiency in edge computing environments.

Xi'an FenShi Aggregation Technology Co., Ltd.

Jun 2023 – Sep 2023

INTERN - Software Engineer

- Developed and maintained **responsive web applications** using **Angular**, **TypeScript**, **JavaScript (ES6+)**, **HTML5** and **CSS3**, ensuring seamless user experience across devices.
- Collaborated with the backend team to integrate **Node.js** APIs (using **Express** and **LoopBack**), enhancing application functionality and performance.
- Participated in **database design and optimization**, using **MySQL** and **MongoDB** for data storage and management.

Digital Luzhou Industrial Investment Group Co., Ltd.

Jul 2022 – Aug 2022

INTERN - Software Engineer

- Developed an **Android application** feature using **Java + Android SDK**, enabling users to access government service websites through in-app navigation.
- Implemented **Intent-based redirection** to open external web pages securely, improving user convenience.
- Designed and optimized the **UI layout** using **XML** and **Android Studio**, ensuring responsiveness across different screen sizes.

ACADEMIC PROJECTS

McMaster Mosaic Academic Planner UI/UX Upgrade

Sep 2024 – Jan 2025

TEAM MEMBER

- Contributed to the **redesign** and enhancement of the academic planner interface using **Figma**, applying **HCI** principles for an improved user experience.

Pokémon API Web App (SEP759 Course Project)

Feb 2024 – Mar 2025

SOLO DEVELOPER

- Developed a **web application** using **Ruby on Rails**, integrating the **Pokémon API** to fetch and display Pokémon data.
