EDUCATION

McMaster University System & Technology, Master of Engineering GPA: 3.9/4.0	Sep 2024 – Present
Soochow University New Energy Materials and Devices, Bachelor of Engineering, College of Energy GPA: 3.4/4.0	Sep 2020 – Jun 2024

SKILLS

- **Programming Language:** Java, C++, Python
- **Web Development:** HTML, CSS, JavaScript
- **Deep Learning & AI:** TensorFlow, PyTorch, OpenCV
- **Database:** MySQL
- **Design & Drafting:** AutoCAD, Figma

PROFESSIONAL EXPERIENCE

Digital Luzhou Industrial Investment Group Co., Ltd. <i>INTERN - Software Engineer</i> • Developed the Mandarin Test registration function using Java (Spring Boot) and MySQL, enabling seamless user registration via the app. • Conducted bug testing and debugging on the trial version using Postman, Android Studio, and Firebase, reporting critical issues and suggesting fixes.	Jun 2022 – Aug 2022
Ningbo Chunjian Electronic Technology Co., Ltd. <i>INTERN – Intelligent Systems Developer</i> • Developed and trained an AI residue detection model for intelligent cockpit systems using Python, PyTorch, and OpenCV. Preprocessed image datasets, applied data augmentation, and fine-tuned a CNN-based architecture to improve detection accuracy. • Assisted in the daily maintenance, debugging, and optimization of the autonomous vehicle's intelligent cockpit system, ensuring stability and efficiency in edge computing environments.	Feb 2024 – Aug 2024

ACADEMIC PROJECTS

McMaster Mosaic Academic Planner UI/UX Upgrade <i>TEAM MEMBER</i> • Contributed to the redesign and enhancement of the academic planner interface using Figma, applying HCI principles for an improved user experience.	Sep 2024 – Jan 2025
The 24th batch of extra-curricular academic research fund project of Soochow University <i>TEAM LEADER</i> • Led a research team in designing and conducting experiments on green recovery of graphite from waste lithium-ion batteries, focusing on sustainable material recycling. • Authored research reports and presented findings at academic forums, showcasing scientific communication and technical writing skills. • Assigned tasks, coordinated research activities, and facilitated collaboration among team members, enhancing leadership, problem-solving, and project management abilities.	Mar 2022 – Jun 2023
